

COMMUNITY CENTER STUDY COMMITTEE
MINUTES: DRAFT May 19, 2015

PRESENT: Penny Billings, Carolyn Bottum, Renel Fredriksen, Steve Gladstone, Tim Higgins, Dan Pereira, Dilla Tingley, David Pollak and Catherine (Abacus)
GUESTS: Owen Beenhauer

NEXT MEETING: Friday June 5, 9am Town Offices

Community Center Schematic Drawings

We reviewed the 7 schematic drawings David Pollak brought of the proposed Community Center building at the Hartwell campus. Some rearrangement of the COA spaces was recommended. Dan Pereira asked that the “weight room” be connected to the “movement space”. We requested a deck to provide outdoor space from the upper level. It would also provide shade against the afternoon west-facing sun on the lower level. Having the atrium windows all slide open to make it an indoor/outdoor space, with screens, will be considered. A roof garden was suggested, but rejected as adding too much cost to the project. Future expansion would be an addition to the north of the 2 story structure.

Unveiling

The drawings will be a coda to the Final Report of the CCSC.
We will present the final drawings in a slide presentation at the Ice Cream Social on June 25 at noon.

Community Input

It makes sense to look for community input when we will be asking for design funds, perhaps in the fall
