Agenda:

- Overview of District Vision and Strategic Plan context
- Presentation of information to inform development of Strategic Priorities and work currently underway
- Community conversation about hopes, expectations, and priorities for the district to consider for the coming year

Each year, the School Administration and the School Committee collaborate on the development of the District Strategic Plan. This process includes the gathering of input from stakeholder groups, review of the district's progress toward achieving current goals, and discussion of appropriate next steps in order to move forward toward achieving the district's vision for education in the Lincoln Public Schools.

The district's current Strategic Priorities are focused on equity and becoming an antiracist district. This work includes the delivery of curriculum and instruction that engages students at high levels and supports the academic, creative, social, and emotional development of all students.

The School Committee and the School Administration invite all members of the community to join them on Thursday, May 5th from 6:00 p.m. – 8:00 p.m. via virtual participation to hear more about the District Strategic Priorities and to share their input about where the district should focus its resources.
